Mr. Tom Clark
P. O. Box 9414
Salt Lake City, Utah 84109

Dear Mr. Clark:

We have inspected your operation on the Daddy Dearest mining claim group and the following items need to be resolved:

A. Junk, including an old pickup, should be removed and disposed of at an authorized landfill. Another truck should be maintained or removed.

B. Two areas require reclamation. The first is the old access road which comes up the side of the hill to the portal. The second is on top where an area was cleared.

C. The old operator address of Mivita Distributing Company is apparently no longer valid. As long as an operator is active, the operator is required to maintain his current address and telephone number at the appropriate area office.

You shall inform us of your future plans within 30 days of the date of this letter. Your future plans shall include a time frame for resolving the aforementioned concerns which include reclamation and removal of junk and address changes. We can schedule an onsite inspection to discuss and resolve these problems if you are agreeable.

We will assume that the operation has been abandoned if we do not hear from you with the 30-day time period and we will then require that the operation be reclaimed.

RECEIVED

FEB 05 1992

DIVISION OF
OIL GAS & MINING

We have enclosed a blank Notice or Plan of Operations form for your convenience.

Sincerely yours,

PENELOPE J. SMALLEY
Area Manager
